Summary

I am starting as a freshman at Amrita University Coimbatore, pursuing Computer Science Engineering. Having learnt the importance of coding over the past two years at high school, I have evolved into quite a passionate programming with a love for solving problems.

Python has been my beginners' language and at the moment I am learning to code in JavaScript for front-end and Go for backend. I have a fascination for easy-to-use UI catering to great-UX, so I do plan to learn about them in detail a couple of months down the line.

While I have a lot to explore and even more so to improve as a developer, I am yet to devise my 5-year plan. Aspiring to become a DevOps Engineer someday and be part of great teams and collaborative people.

Education

Amrita Vishwa Vidyapeetham

Bachelor of Technology - BTech, Computer Science Engineering

2022 - 2026

Starting as a freshman at Amritha Vishwa Vidyapeetham in the fall of 2022.

Chinmaya Vidyalaya

Secondary and Higher Secondary, STEM Subjects - (Phy, Chem, Math, Computers)

Aug 2014 - Jun 2022

Licenses & Certifications

Learn Python - Boot.dev

Learn Object Oriented Programming (python) - Boot.dev

Learn JavaScript - Boot.dev

Paradigm Conference Certificate - Paradigm Conference

8bd519496c3e43568123903d828cbee5

Learn SQL Course - Boot.dev

Learn HTTP - Boot.dev

Skills

SQL • SQLite • MySQL • Object-Oriented Programming (OOP) • JavaScript • Back-End Web Development • Communication • Responsive Web Design • Python (Programming Language) • Microsoft PowerPoint
